

## International Private Medical Insurance

International Health Insurance secures worldwide free choice of doctors and hospitals, the availability of comprehensive, best-in-class medical services across borders and global continuity of coverage when relocating. Yet even those who have no intention to seek treatment abroad may be well advised to choose an international plan over a local health insurance, due to its greater flexibility and cover.

### Who can benefit from our offering?

- **Global Citizen:** If you have several homes or travel frequently.
- **Expatriate:** If your employment requires you to move abroad.
- **Frequent Traveler:** If you wish to cover yourself for all your trips.
- **Moving Abroad:** If you are moving abroad.
